

Spring 2018

Willow Springs *Messenger*

Happy Spring!

After a relatively mild winter, we have been working hard in the Village to get ready for spring and summer. Thanks to the public works and our snow team for keeping the streets in tip top shape!

Welcome to Liz Gorman, the new Illinois Tollway Executive Director. She is taking an active interest in areas of flooding in our community that can be impacted by the Tollway. The Tollway is currently working with members of our community on flood mitigation.

Many residents have inquired about the smell of asphalt near the river. Rest assured that the village administration is addressing this issue - we have cited the company and are monitoring them for future violations. We are also working with them on a long term solution.

As you look through this newsletter, you will find information on our many upcoming events such as Clean Up Willow Day. Come out, lend a hand and get to know your neighbors. We are excited about the great things happening in our village and are confident that you will be too!

PUBLIC WORKS DISHES THE FACTS ABOUT SEWER SYSTEMS...

There are two types of sewer systems in our village: storm water sewers and sanitary sewers. Storm water systems and drains carry rain water, ground water and road runoff water to an open body of water such as streams, lakes or rivers. Sanitary sewers carry waste water from residential and commercial buildings to a treatment plant where the contaminants in the water are removed.

Storm drains and sanitary drains are separate to prevent cross contamination. In a residence, each drain system is connected to the village sewers by underground pipes called lateral lines. A lateral line is usually 4 to 6 inches in diameter and installed at a slope using gravity for water flow. Maintaining lateral lines is the homeowner's responsibility. (See sewer system diagram). Not all areas of Willow Springs have storm sewers. When storm sewers are not present, the water is drained above ground in ditches or culverts.

WHAT CAUSES BACKUPS?

Backups can be caused by a number of factors, but usually the cause of a backup is a blockage in the lateral lines. The most frequent cause of a blockage is fat, oil, or grease accumulation, tree roots, disposable diapers, sanitary napkins, flushable wipes and other items that do not dissolve in water.

Willow Springs uses five lift stations to assist where gravity needs a little extra help pumping the sanitary water to its final destination. Each month, the public works department checks all of the lift stations and physically removes many of the items listed above. These items have been found in ALL of the lift stations on a regular basis during maintenance checks. Recently, we had to replace the pump at one of the lift stations which is very costly to the village. Please refrain from using flushable wipes; although they do flush, they do not dissolve like toilet paper.

Leaves, twigs, grass clippings and plastic bags can create blockages in our storm sewers. When these items get wet, they clump together forming clogs in the sewer mains and can back up into the storm lateral lines. They also cause flooding and can make our streets impassable.

Sometimes our sewers get overloaded. When big storms hit like they did last October, the volume of water can overwhelm the capacity of the sewer system. When this happens the mains cannot handle the flow from homes and the lateral lines can backup. During a storm event, sump-pumps ejecting storm water from beneath your house should be directed toward the street. If you pump to the back yard and the sanitary sewer main is in the back, it can fill the sanitary with storm water and cause sewage to backup into your house.

HOW DO I KNOW IF A BASEMENT BACKUP IS FROM TOO MUCH RAIN OR A CLOGGED LATERAL?

When basement backups occur because of capacity issues in the sanitary sewer system, they usually impact more than one home on the block. If your home is the only one backing up, there is likely a problem with your lateral line. If it's not raining and you get water backing up into your home through a floor drain, you likely have a clogged lateral. The water that you used inside your home cannot get through the lateral and empty into the village's sewer in the street.

A MESSAGE FROM POLICE CHIEF SAM PULIA...

WILLOW SPRINGS POLICE JOINS DRUG TAKE BACK DRUG PROGRAM

The Cook County Sheriff's Prescription Drug Take Back Program is a free service for Cook County residents to collect their unused and expired prescription and nonprescription drugs. Unused pills can become a source of accidental overdoses, illegal possession and misuse that can lead to poisoning or death. The Willow Springs Police have joined a host of communities participating in this program to dispose of unwanted, expired or unneeded drugs.

Inside the lobby of the Willow Springs Police Department is a receptacle similar to a mail box that your unwanted pills and pharmaceuticals can be placed from 7am-11pm.

Do not leave pharmaceuticals lying around unattended • Do not throw them in the trash or down the sink • Do not flush them down the toilet

This free service is not available for use by retail businesses or other companies that handle prescription drugs.

WILLOW SPRINGS POLICE ADDRESS OPIOID CRISIS

Willow Springs Police Officers have been trained in the administration of NALOXONE (Narcan) which has been successfully used to save the life of persons who have overdosed on Opioid based drugs.

More people are killed by an opioid overdose than by guns or car crashes. But YOU can save a life by arming yourself with naloxone. This accessible and easy-to-use drug can reverse an overdose. Members of the public interested in knowing how to obtain free naloxone should email opioid.help@cookcountyil.gov for further information.

IRS PHONE SCAMS

With tax season right around the corner this community as well as many others have received reports of receiving phone calls from the Internal Revenue Service. In this scam, an automated voice claims there is a warrant out for the arrest of the receiver of the call and that they must call a phone number with a Chicago area code to resolve it. Upon calling the number, a person claiming to be an Internal Revenue Service (IRS) agent states that the caller must make payment or the warrant will be passed on to law enforcement authorities. The fake agent may give a bogus badge number and be able to recite the last four digits of the caller's social security number. In some cases the phone number received on your caller ID can be the 800 number to the IRS Office.

This is a known scam that becomes particularly pervasive around tax time. The IRS does not initiate contact with taxpayers without sending prior notification via mail. Additionally, the IRS does not work with local law enforcement authorities in this manner.

- If you believe the call is suspicious, hang up.
- **Never** give personal information, such as social security or bank account numbers, over the phone.
- Legitimate IRS agents and law enforcement agencies do not ask that payments be made via pre-paid debit cards.
- In some cases, the phone numbers may appear to be from legitimate agencies due to phone number spoofing applications. If this is the case, call that agency to determine if there is a legitimate reason to contact you. Do not use the phone number the caller gives you.

Do not hesitate to contact the Willow Springs Police should you receive such a call.

STATE OF ILLINOIS DEBT RECOVERY PROGRAM

Last month the Village of Willow Springs joined a host of other communities in the State of Illinois Debt Recovery Program. Beginning January 2018, those individuals owing an unpaid debt to the Village of Willow Springs will be subject to the amount of the debt being deducted from their State Income Tax Return or other State of Illinois revenue payments (i.e. lottery winnings or state payroll). If you have an unpaid ticket or debt to the village, please contact our police records department at 708-839-2732 extension 227 to rectify the situation.

The Village of Willow Springs is poised to go back 7 years in our collection efforts. I am encouraging all of our residents and non-residents alike to contact our records division to see whether or not there is an unpaid debt to this village.

Additionally, if you have 10 unpaid parking tickets, including failure to purchase or display a current Willow Springs vehicle tag on your vehicle, your ILLINOIS DRIVERS LICENSE IS SUBJECT TO BEING SUSPENDED. If you are caught driving on a suspended driver's license you will be arrested, photographed, fingerprinted, your vehicle may towed, and in addition to the towing charge, an administrative tow fee of \$500.00 will be imposed before your car will be released.

At the February 8, 2018 Board Meeting, the village board authorized the police department to contact the Illinois Secretary of State's Office and proceed with the suspensions of four individuals who have accumulated 10 or more parking citations. These individuals have now accumulated fines and penalties that have exceeded between two and three thousand dollars each owed to the village.

Additionally, their names will be sent to the Comptroller's Office for the debt to be deducted from their State Tax Return over the next several tax years.

The Police Department and Village are willing to work with you on a case by case basis to avoid the actions above. Please call us before any unpleasant surprise shows up in your tax refund check.

- Any fines not specifically defined in any of the sections of Village Code **Chapter 2 Animal Regulations** shall be levied at not less than Fifty dollars (\$50) nor more than Seven Hundred Fifty dollars (\$750). (Ord. 02-O-2009)

The Village of Willow Springs participates in a "Reverse 911" system which dispatches public safety messages directly to your phone in the event of an emergency. To register go to the village website at www.willowsprings-il.gov and click on the police department link.
